- retain data no longer than is necessary for the specified purpose or purposes for which it was given
- furnish a copy of personal data, or sensitive personal data to any individual, on request

Relevant filing system means any set of information that, while not computerised, is structured by reference to individuals or by reference to criteria relating to individuals, so that specific information relating to a particular individual is readily, quickly and easily accessible.

Personal Data means data relating to a living individual who is or can be identified either from the data or from the data in conjunction with other information that is in, or is likely to come into, the possession of the Data Controller.

Wider Legal Obligations

The provisions of this policy take cognisance of the school's legal obligations and responsibilities in areas directly relevant to data protection, as outlined below:

- Under Section 9(g) of the Education Act, 1998, the parents of a student, or a student who has reached the age of 18 years, must be given access to records kept by the school relating to the progress of the student in their education
- Under Section 20 of the Education (Welfare) Act, 2000, the school must maintain a register of all students attending the School.
- Under section 20(5) of the Education (Welfare) Act, 2000, a principal is obliged to notify certain information relating to the child's attendance in school and other matters relating to the child's educational progress to the principal of another school to which a student is transferring.
- Under Section 21 of the Education (Welfare) Act, 2000, the school must record the attendance or non-attendance of students registered at the school on each school day.
- Under Section 28 of the Education (Welfare) Act, 2000, the School may supply *Personal Data* kept by it to certain prescribed bodies (the Department of Education and Skills, the National Education Welfare Board, the National Council for Special Education, other schools, other centres of education) provided the School is satisfied that it will be used for a relevant purpose.
- Under Section 14 of the Education for Persons with Special Educational Needs Act, 2004, the school is required to furnish to the National Council for Special Education (and its employees, which would include Special Educational Needs Organisers ("SENOs")) such information as the Council may from time to time reasonably request.
- The Freedom of Information Act 1997 provides a qualified right to access to information held by public bodies which does not necessarily have to be "personal data" as with data protection legislation. While schools are not currently subject to freedom of information legislation, if a school has furnished information to a body covered by the Freedom of Information Act (such as the Department of Education and Skills, etc.) these records could be disclosed if a request is made to that body
- Under Section 26(4) of the Health Act, 1947 a School shall cause all reasonable facilities (including facilities for obtaining names and addresses of pupils attending the school) to be given to a health authority who has served a notice on it of medical inspection, e.g. a dental inspection

- Under *Children First: National Guidance for the Protection and Welfare of Children* (2011) published by the Department of Children & Youth Affairs, schools, their boards of management and their staff have responsibilities to report child abuse or neglect to TUSLA - Child and Family Agency (or in the event of an emergency and the unavailability of TUSLA, to An Garda Síochána).

- Board of Management data is kept both in manual form, within a relevant filing system and on computer files. Computer files require a password and employees are required to maintain the confidentiality of any data to which they have access.

October Returns

At the beginning of each academic year (and for 1st year or transferring students, on enrolment) parents/guardians and students are asked to provide the school with certain information so that the School can make returns to the Department of Education and Skills ("DES") referred to as "October Returns". These October Returns will include sensitive personal data regarding personal circumstances which are provided by parents/guardians and students on the basis of explicit and informed consent. The October Return contains individualised data (such as an individual student's PPS number) which acts as an identifier for the DES to validate the data that belongs to a recognised student. The DES also transfers some of this data to other government departments and other State bodies to comply with legislation, such as transfers to the Department of Social Protection pursuant to the Social Welfare Acts, transfers to the State Examinations Commission, transfers to the Educational Research Centre, and transfers to the Central Statistics Office pursuant to the Statistics Acts. The data will also be used by the DES for statistical, policy-making and research purposes. However the DES advises that it does not use individual data, but rather aggregated data is grouped together for these purposes. The DES has a data protection policy which can be viewed on its website (www.education.ie). The DES has also published a "Fair Processing Notice" to explain how the personal data of students and contained in October Returns is processed. This can also be found on www.education.ie (search for Circular Letter 0047/2010 in the "Circulars" section).

The rationale for seeking and retaining personal data pertinent to October returns is as follows:

- October Returns are made in order to comply with DES requirements to determine staffing and resource allocations and to facilitate the orderly running of the school.

- Personal data pertaining to October Returns is kept on computer files. Computer files are password protected and employees are required to maintain the confidentiality of any data to which they have access.

Data Storage

The security of personal information relating to students and staff is a very important consideration under the Data Protection Acts and is taken very seriously at Loreto College Cavan. Appropriate security measures will be taken by the school to protect unauthorised access to this data and to the data it is collecting and storing on behalf of the Department of Education and Skills (DES).

A minimum standard of security will include the following measures:

- Access to the information will be restricted to authorised staff on a “need-to-know” basis.
- Manual files will be stored in a relevant filing system, located away from public areas.
- Computerised data will be held under password protected files.

- Any information which needs to be disposed of will be done so carefully and thoroughly.
- The premises at Loreto College Cavan are protected by MAGIC SECURITY and are monitored on a 24 hour/7 day week basis.

- When not required, the paper or files will be kept in a relevant filing system
- All personnel will ensure that personal data, paper and printouts are not left where unauthorised people could see them.
- Data will be shredded and disposed of securely when no longer required.

When data is stored electronically, it will be protected from unauthorised access, accidental deletion and malicious hacking attempts:

- Data will be protected by strong passwords that are changed regularly and never shared between employees.
- If data is stored on removable media (e.g. a USB key), these will be kept locked away (and ideally encrypted) when not being used.
- Data will be stored on designated drives and servers and will only be uploaded to approved cloud computing services.
- Servers containing personal data will be sited in a secure location.
- Data will be backed up frequently.
- All servers and computers containing data will be protected by an approved security software and a firewall.

Data Use

Personal data is at often at the greatest risk of loss, corruption, or theft when it is being used or accessed:

To mitigate this risk :-

- when working with personal data, all personnel will ensure that the screens of their computers/tablets/apps are always locked when left unattended.
- personal data shared by email will be downloaded, stored securely, and then deleted.
- data will be encrypted before being transferred electronically where appropriate.
- staff will not save copies of personal data to their own computers.

Data Accuracy

Loreto College Cavan is cognisant of its duty to take reasonable steps to ensure that data is kept accurate and up-to-date.

- Data will be held in as few places as necessary.
- Every opportunity will be taken to ensure that data is updated (for example, by updating a student's contact information).
- Loreto College Cavan will make it as easy as possible for data subjects to update the information held about them, over the phone, or by email.

- Data will be updated as and when inaccuracies are discovered (for example), if a data subject can no longer be reached on their stored telephone number, it will be removed from the database.

Data Disclosure to Third Parties

As the Data Controller, the Board of Management is responsible for any personal data passed to third parties and care will be given to procedures and security.

The only data disclosed to third parties in the normal course of events is as described in Loreto College Cavan's Privacy Notices and Register of Personal Data Records.

The following list includes examples of such organisations but is not exhaustive:

- An Garda Síochána
- Túsla
- Department of Education and Skills
- Insurance Company
- Health and Safety Authority
- Workplace Relations Commission
- Revenue Commissioners

Note: Data Collected Through Garda Vetting

Loreto College Cavan understands that sensitive information may be identified through Garda Vetting. In the event that an employee's Garda vetting raises concerns, the information will be dealt with on a confidential basis. All information pertaining to such a situation will be stored in the same way as other data. The Board of Management will not pass on a copy of a Garda Vetting Form to any other party.

Data Erasure and Disposal

When documentation or computer files containing personal data are no longer required, the information will be disposed of carefully to continue to ensure the confidentiality of the data.

Paper-based files and information no longer required, will be safely disposed of in shredding receptacles. Usually the data will be shredded on site by school personnel – but occasionally a third party data destruction specialist will be employed and vetted staff will collect documents which will be shredded on site by the specialists.

In the case of personal information held electronically, temporary files containing personal information will be reviewed regularly and deleted when no longer required.

When personal data reaches the point where the retention period has expired, the information will also be securely deleted and removed. In the event that IT equipment containing personal data is no longer required, all data stored on the devices will be removed prior to disposal.

Subject Access Request (SAR) Handling Procedure

The Data Protection Acts, 1988 and 2003, the Data Protection Bill of 2018 and the 2016 GDPR provide for a right of access by an individual data subject to personal information held by Loreto College Cavan. A person seeking information, the Data Subject, is required to familiarise himself/herself with this policy. This may apply to a staff member or student seeking information on his or her own behalf or maybe a parent/guardian seeking information on behalf of his or her own daughter. No information will be supplied that relates to another individual. Although from time to time an individual may request by telephone details of some elements of their personal data, formal SARs must be submitted in writing, either electronically or by post.

Students making access requests

The Board of Management of Loreto College Cavan, in compliance with the GDPR recognises that children merit specific protection with regard to their personal data, as they may be less aware of the risks, consequences and safeguards concerned, and also their rights in relation to the processing of personal data. It aims to balance the complementary rights of the child outlined in Articles 16(i) and 5 of the UN Convention of the Rights of the Child, these being that “no child shall be subjected to arbitrary or unlawful interference with his and her privacy, family, home or correspondence, nor to unlawful attacks on his or her honour” and “rights and duties of parents to provide..... in a manner consistent with the evolving capacities of the child, appropriate direction and guidance in the exercise by the child of the rights recognised in the present Convention”.

- A student aged **eighteen years or older** (and not suffering under any medical disability or medical condition which may impair his or her capacity to give consent) may give consent themselves.

- If a student aged **eighteen years or older** has some disability or medical condition which may impair his or her ability to understand the information, then parental/guardian consent will be sought by the school before releasing the data to the student.

- While a student aged from **thirteen up to and including seventeen** can be given access to their personal data, depending on the age of the student and the nature of the record, i.e. it is suggested that:
 - If the information is ordinary, routine or non-controversial (e.g. a record of a test result) the student could readily be given access

- If the information is of a sensitive nature, parental/guardian consent will be sought before releasing the data to the student
 - If the information would be likely to be harmful to the individual concerned, parental/guardian consent will be sought before releasing the data to the student.
- Each student request for Access to Personal Data will be assessed individually.

Parents making access requests on behalf of their daughter

Where a parent/guardian makes an access request on behalf of his/her daughter (a student aged under 18 years), the right of access is a right of the data subject (i.e. it is the student's right). In such a case, the access materials will be sent to the daughter, not to the parent who requested them. This means that the access request documentation will be sent to the address at which the student is registered on the school's records and will be addressed to the daughter subject to the provisions above.

Others making an access request

The purpose of a SAR is to make individuals aware of and allow them to verify the lawfulness of the processing of their personal data. Under the GDPR and the current Data Protection Acts (DPA), individuals have the right to obtain confirmation as to whether personal data is being processed. If personal information is being processed, they are entitled to access the following information:

- the reasons why their data is being processed,
- the description of the personal data concerning them,
- anyone who has received or will receive their personal data, and
- details of the origin of their data if it was not collected from them.

To ensure SARs are responded to in a timely and effective manner, responsibility for identification and management of all requests will be assigned to a Designated Person. At Loreto College Cavan the Designated Person is the Principal and in his/her prolonged absence, the Deputy Principal.

Steps in Making a Subject Access Request (SAR)

1. The Data Subject applies in writing requesting access to his/her data. The school reserves the right to request official proof of identity (e.g. photographic identification such as a passport or driver's licence) where there is any doubt on the issue of identification

2. On receipt of the Data Access Request, the Principal will check the validity of the access request and check that sufficient information to locate the data requested has been supplied. It may be necessary for the Principal to contact the data subject in the event that further details are required with a view to processing the access request.
3. The Principal will log the date of receipt of the valid request and keep a note of all steps taken to locate and collate the requested data.
4. The Principal will ensure that all relevant manual files and computers are checked for the data in respect of which the access request is made.
5. The Principal will ensure that the information is supplied promptly and within one month of first receiving the request.
6. If data relating to a Third Party is involved, it will not be disclosed without the consent of that Third party or alternatively the data will be anonymised in order to conceal the identity of the third party. Where it is not possible to anonymise or conceal the identity of the third party the data to ensure that the Third Party is not identified, then that item of data may not be released.
7. Where a school may be unsure as to what information to disclose, the school reserves the right to seek legal advice.
8. The Principal will ensure that the information is provided in an intelligible form (e.g. codes explained) where possible.
9. The documents supplied will be numbered where appropriate.
10. The Principal will sign off on the data supplied.
11. The school reserves the right to supply personal information to an individual in an electronic format e.g. on USB etc
12. Where a subsequent or similar access request is made after the first request has been complied with, the school has discretion as to what constitutes a reasonable interval between access requests and this will be assessed on a case-by case basis.

Appealing a Decision in Relation to a Data Access Request

The Board of Management of Loreto College Cavan is respectful of the right of the Data Subject to appeal a decision made in relation to a request for data from this school. To appeal a decision, the Data Subject is advised to write to or email the Data Protection Commissioner explaining the case:-

Canal House, Station Road, Portarlinton, Co. Laois

[\(info@dataprotection.ie\)](mailto:info@dataprotection.ie)

The correspondence should include

- the name of this school
- the steps taken to have concerns dealt with
- details of all emails, phone calls, letters between the Data Subject and this school.

Data Breaches

Definition: A data breach is an incident in which personal data has been lost, accessed, and/or disclosed in an unauthorised fashion.

This would include, for instance, loss or theft of a laptop containing staff or student details, an email with personal information being sent to the wrong recipient, as well as more organised incidents of external hacking.

All school personnel have a responsibility to take immediate action if there is a data breach.

- If a staff member suspects at any time and for any reason that a breach may have occurred, then there is a need to report it to the DPO/Data Controller as an urgent priority
- Once notification of an actual or suspected breach has been received, the DPO/Data Controller will put the Data Breach Procedure into operation with immediate effect.

Data Breach Handling Procedure

The purpose of the Data Breach Procedure here below, is to ensure that all necessary steps are taken to:

- (i) contain the breach and prevent further loss of data
- (ii) ensure data subjects affected are advised (where necessary)
- (iii) comply with the law on reporting the incident to the Data Protection Commissioner if necessary
- (iv) learn from the incident - identify what measures can and should be put into place to prevent similar occurrences in the future

Data Breach Response Plan

- A Breach Incident Leader will be nominated. This will typically be the DPO.
- Stakeholders will be identified
- A breach response handling team will be formed - comprising the school's Senior Management Team / the IT Coordinator / external IT supplier etc.
- The five-step process below will be initiated, with an evaluation after each stage

The information communicated to data subjects will include information on the nature of the personal data breach and a contact point where more information can be obtained. It will recommend measures to mitigate the possible adverse effects of the personal data breach.

The maximum timeframe for notification to the Office of the Data Protection Commissioner has been set at 72 hours from the time the incident is first discovered.

Data Breach – Five Step Process

1. Identification and Initial Assessment of the Incident.

- Identify and confirm volumes and types of data affected
- Establish what personal data is involved in the breach
- Identify the cause of the breach
- Estimate the number of data subjects affected
- Establish how the breach can be contained

2. Containment and Recovery

- Establish who within the school needs to be made aware of the breach
- Establish whether there is anything that can be done to recover the losses and limit the damage the breach could cause
- Partial or complete systems lockdown
- Establish if it is appropriate to notify affected individuals immediately (for example where there is a high level of risk of serious harm to any individual)

3. Risk Assessment:

A detailed analysis of volumes and types of data involved will be undertaken and a risk assessment carried out to establish

- risks for Data Subjects
- risks for Loreto College Cavan

4. Notification

On the basis of the evaluation of risks and consequences, the Breach Response Team will decide whether it is necessary to signal the breach outside of the school. For example

- the Gardaí
- the Data Subjects affected by the breach
- the Data Protection Commissioner
- the school's insurers

In accordance with the Data Protection Commissioner's Code of Practice **all** incidents in which **Personal Data** has been put at risk will be reported to the Office of the DPC within 72 hours of Loreto College Cavan first becoming aware of the breach.

If, following the assessment described above, it is established that the data breach has been fully and immediately notified to the Data Subjects affected **and** it affects no more than 100 Data Subjects **and** it does not include sensitive personal data or personal data of a financial nature, it may not require to be notified to the ODPC. This will be assessed on an individual basis according to the school's policy on Data Breach above, and where there is any doubt, legal advice will be sought.

5 Evaluation and Response

Following any serious Breach of Data incident, a thorough review will be undertaken by the response team and a report will be made to the Data Controller. This will identify the strengths and weakness of the process and will indicate what areas may need to improve.

This policy was ratified by the Board of Management of Loreto College Cavan on 14th May 2018.

It will be reviewed every three years or more often should the Board of Management think it necessary in light of changed or amended legislation. Any review will continue to be guided by the school's characteristic spirit and commitment to its responsibilities under data protection legislation.
